Local File Sharing (Samba)

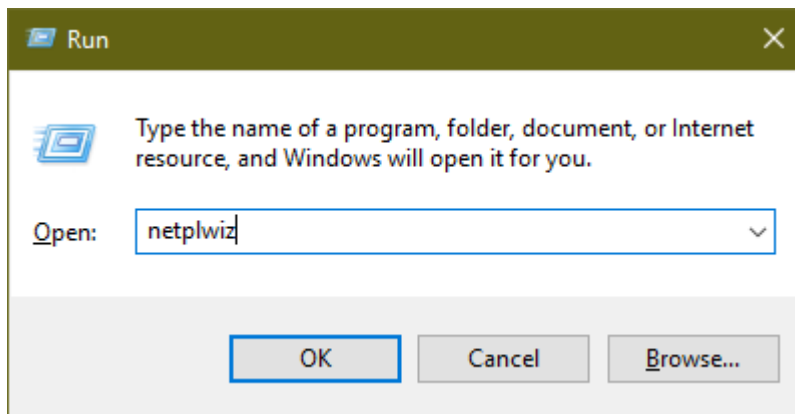

Membuat dokumen yang akan dibagikan dengan nama “File Sharing”

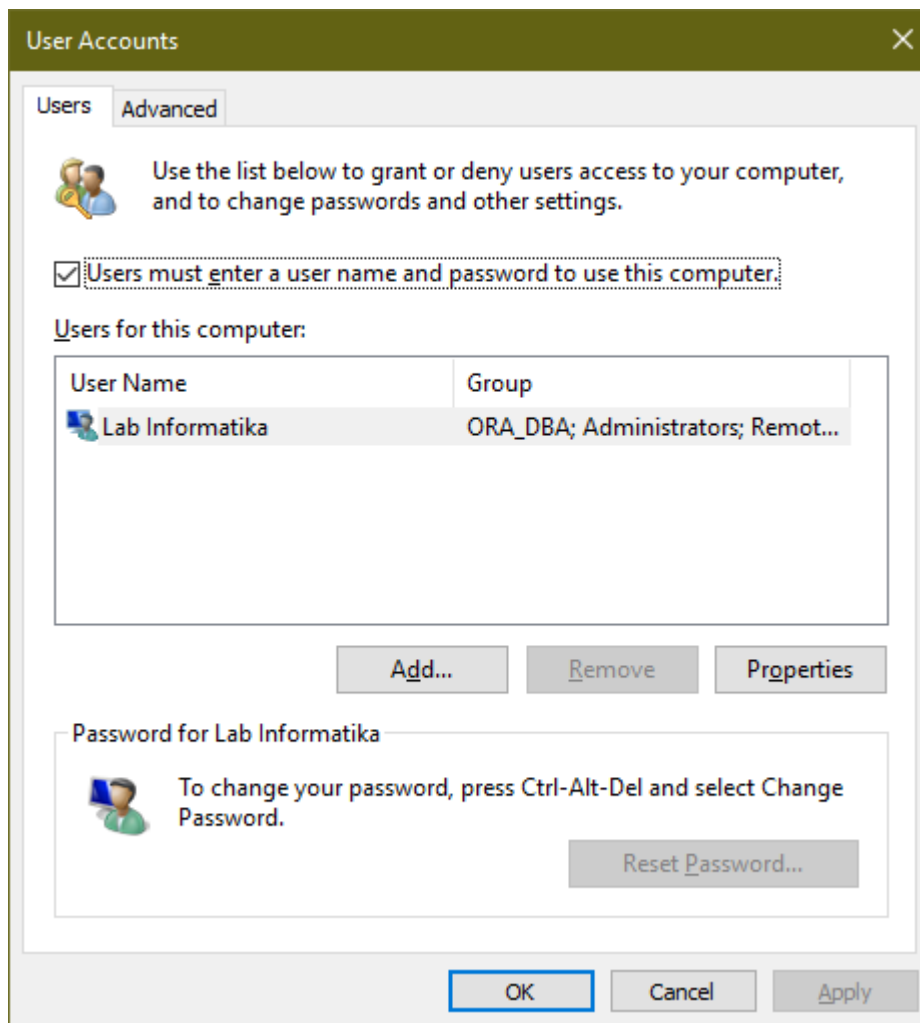

Didalamnya buat 5 folder yang terdiri dari Aplikasi, dokumen, Foto, Games, Video

Buat notepad dengan isi Nama dan NIm masing-masing

Workaround pembuatan akun dengan cara membuka Win+R lalu ketikkan “netplwiz”

Pilih add untuk membuat akun baru

How will this person sign in?

What email address would this person like to use to sign in to Windows? (If you know the email address they use to sign in to Microsoft services, enter it here.)

Email address

[Sign up for a new email address](#)

This person can sign in to easily get their online email, photos, files, and settings (like browser history and favorites) on all of their devices. They can manage their synced settings at any time.

Cancel

Kemudian pilih yang Sign in without a Microsoft....

Add a user

There are two options for signing in:

Microsoft account

Signing in to PCs with your email address lets you:

- Download apps from Windows Store.
- Get your online content in Microsoft apps automatically.
- Sync settings online to make PCs look and feel the same—like your browser history, account picture, and color.

Local account

Signing in with a local account means:

- You have to create a user name and account for each PC you use.
- You'll need a Microsoft account to download apps, but you can set it up later.
- Your settings won't be synced across the PCs that you use.

Microsoft account

Local account

Cancel

Lalu pilih Local account

Add a user

Choose a password that will be easy for you to remember but hard for others to guess. If you forget, we'll show the hint.

Add a user

The following user will be able to sign in to this PC.

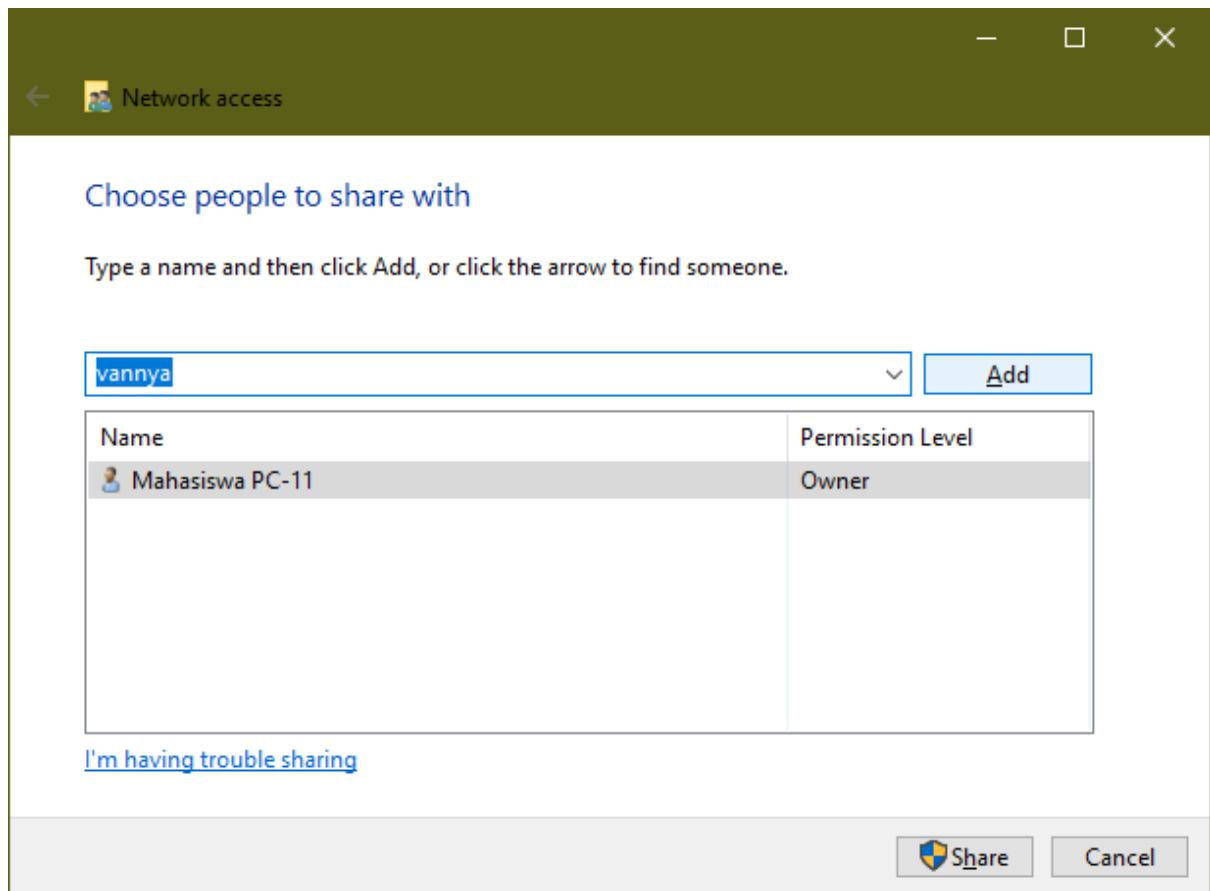

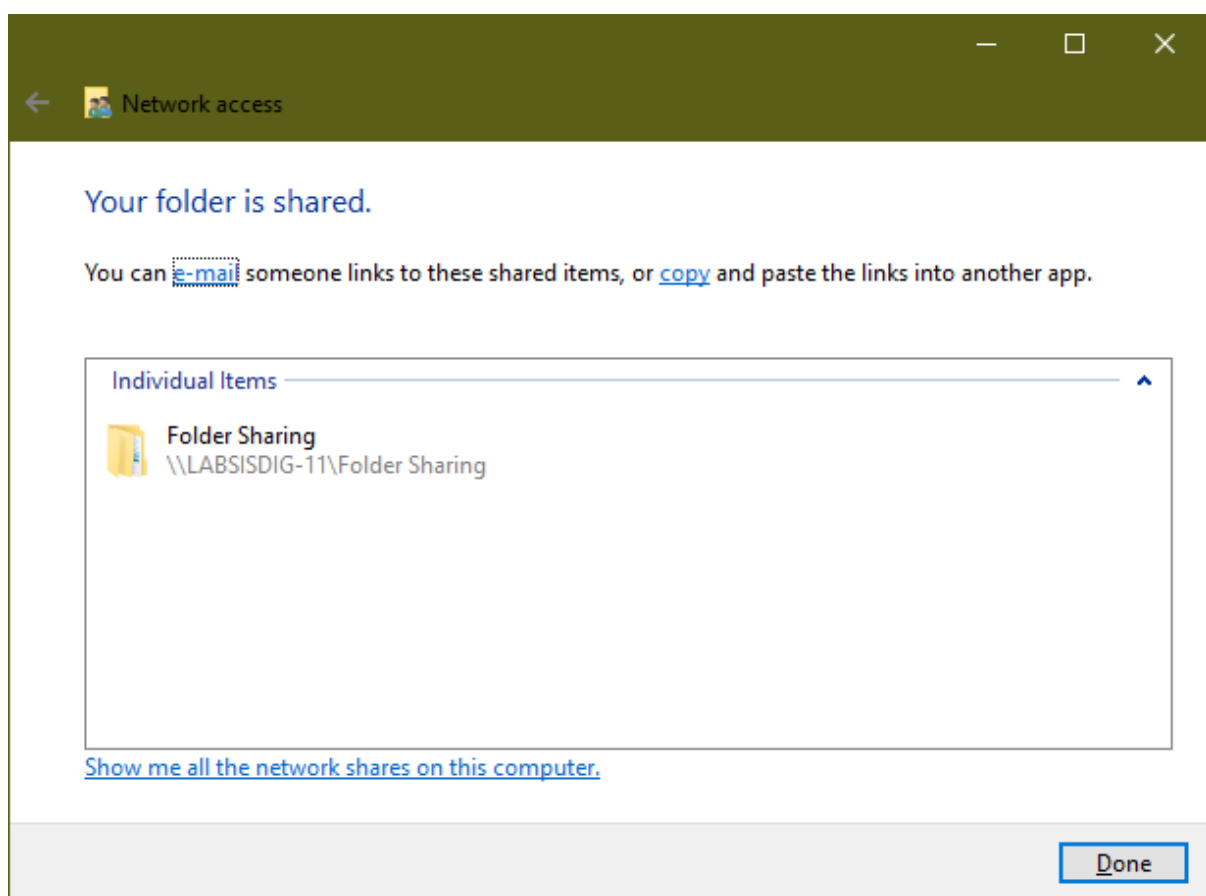

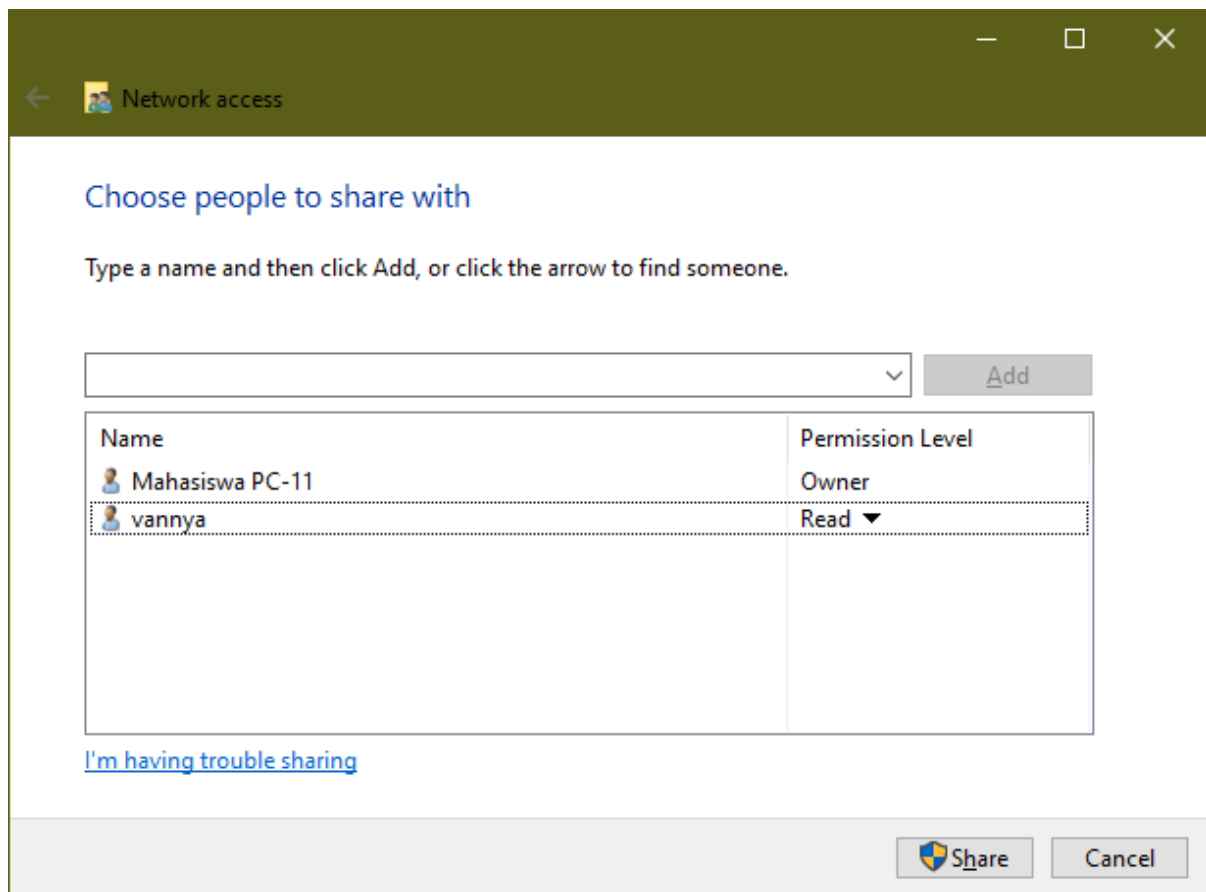

vannya
Local account

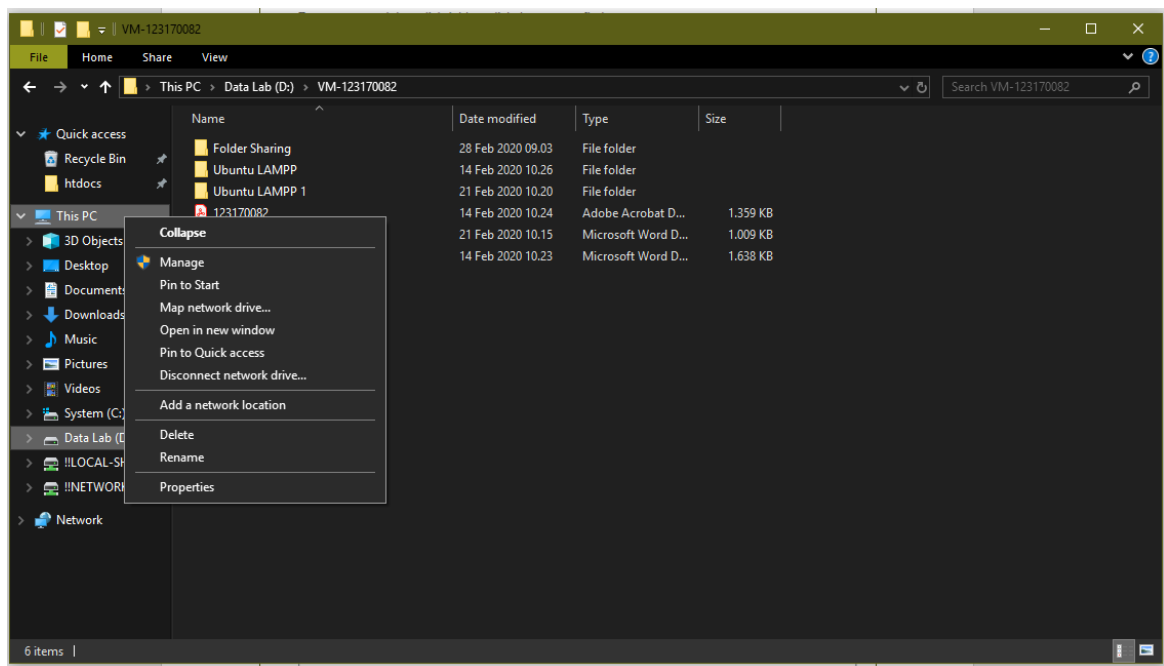

Finish

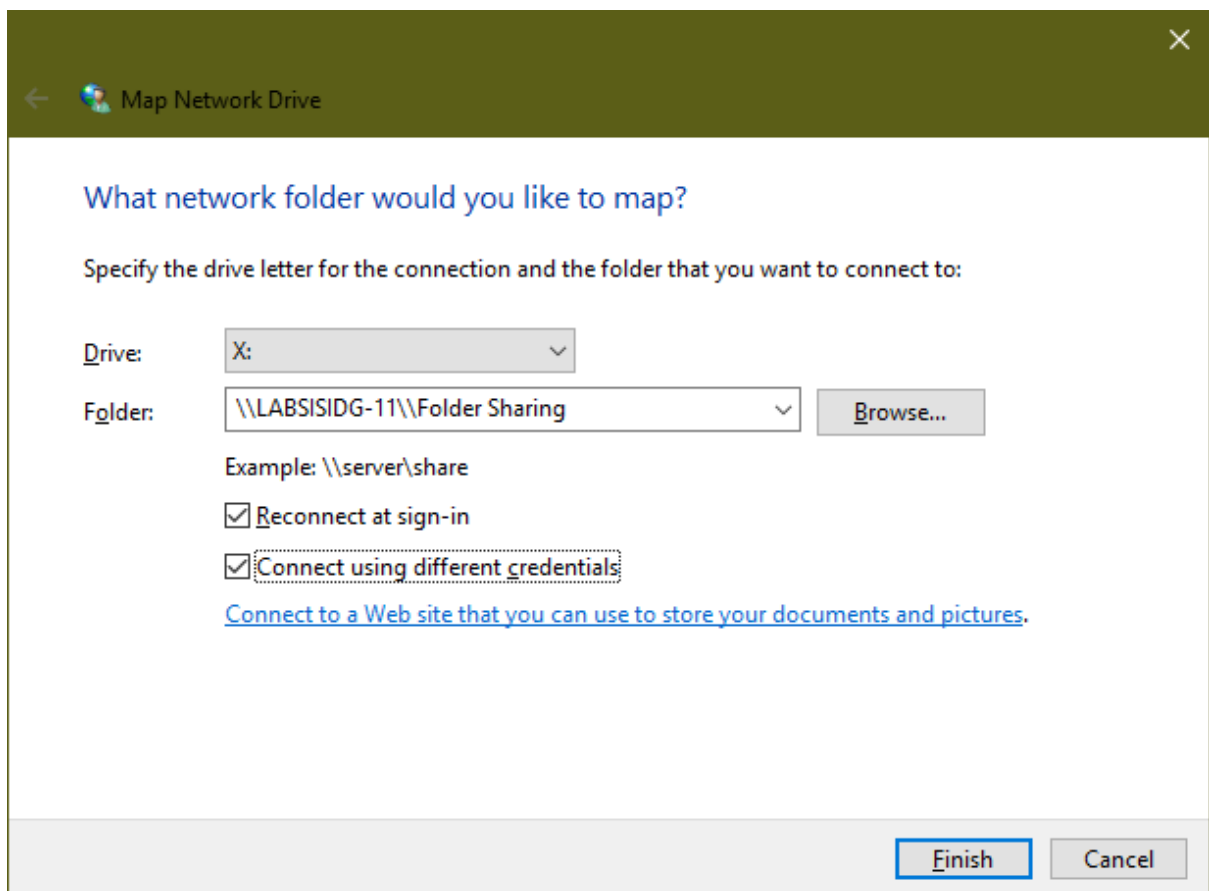

Lalu buka Wind Explorer lalu klik kanan lalu pilih give access to lalu pilih yang spesifik people

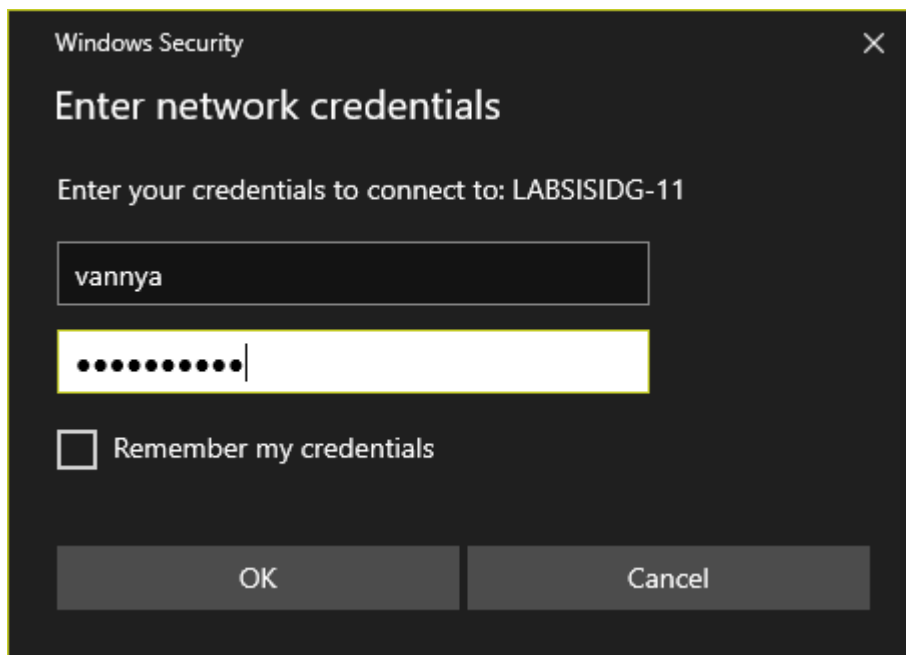

Klik kanan di This PC lalu pilih map network drive

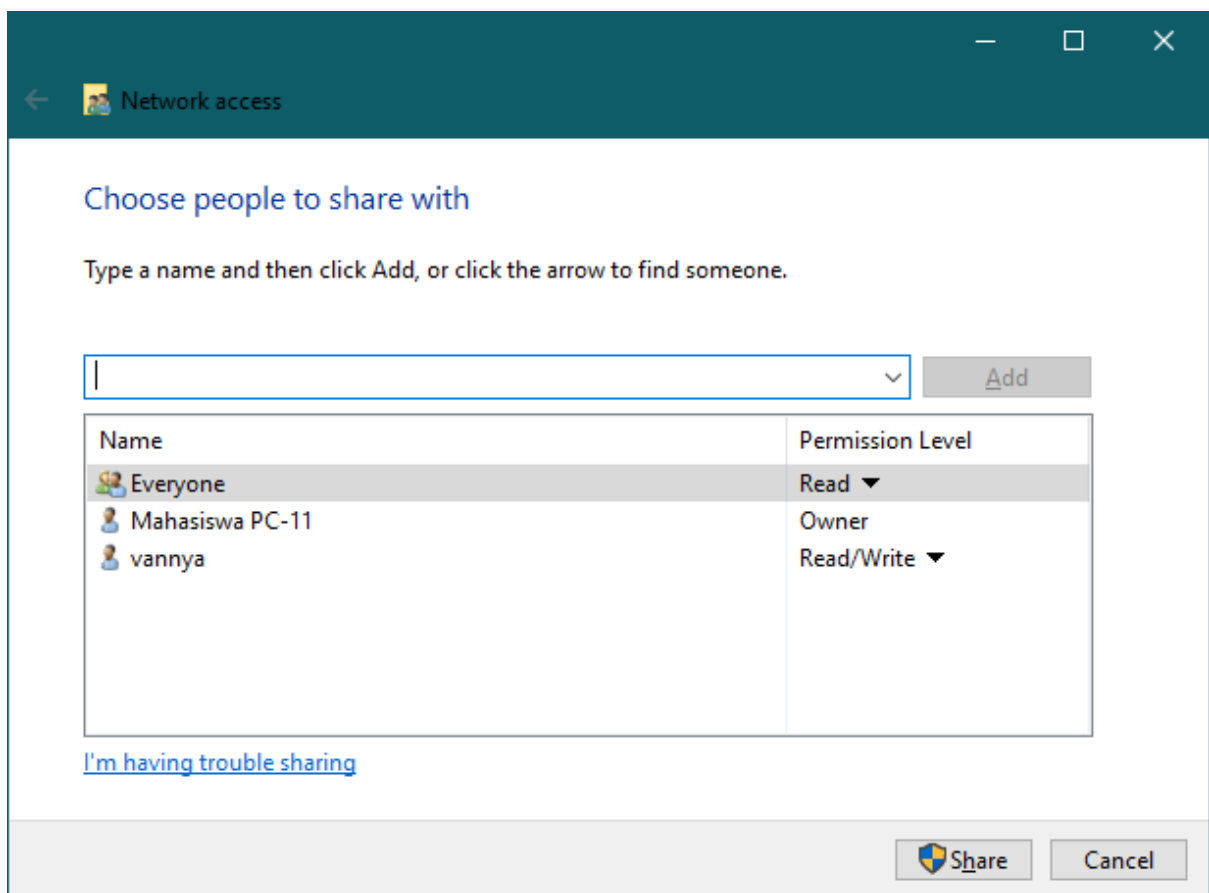

Lalu isikan link foldernya jangan lupa semuanya di centang lalu klik finish

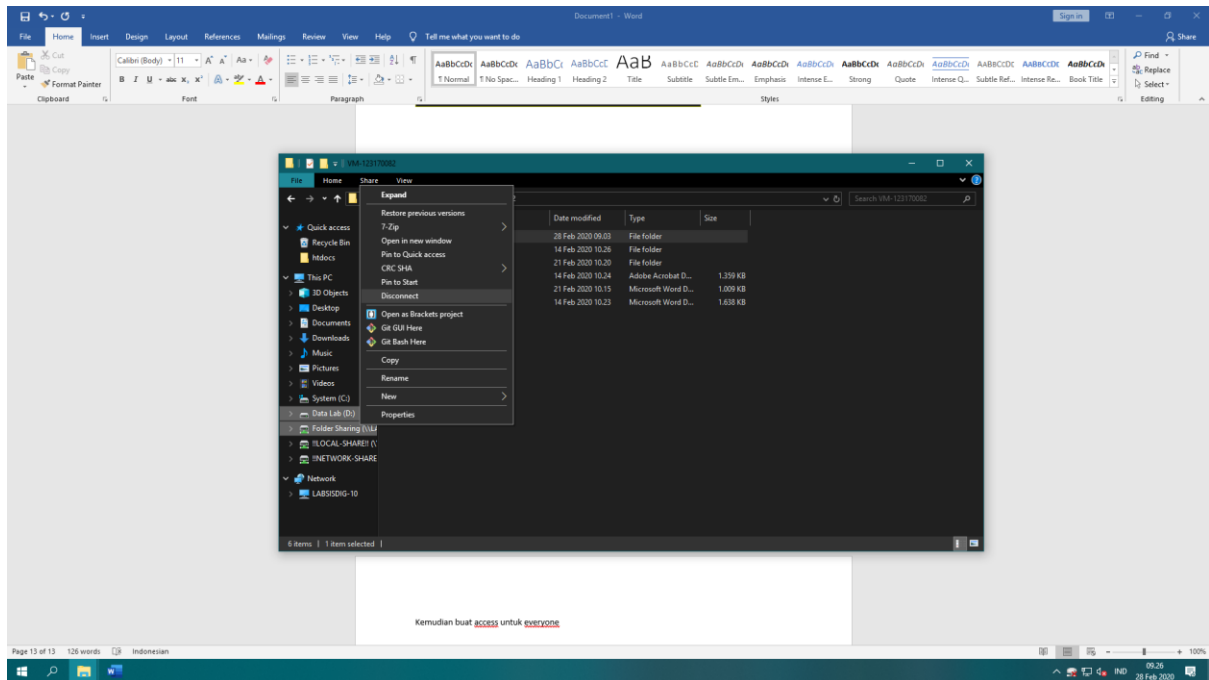

File sharing baru

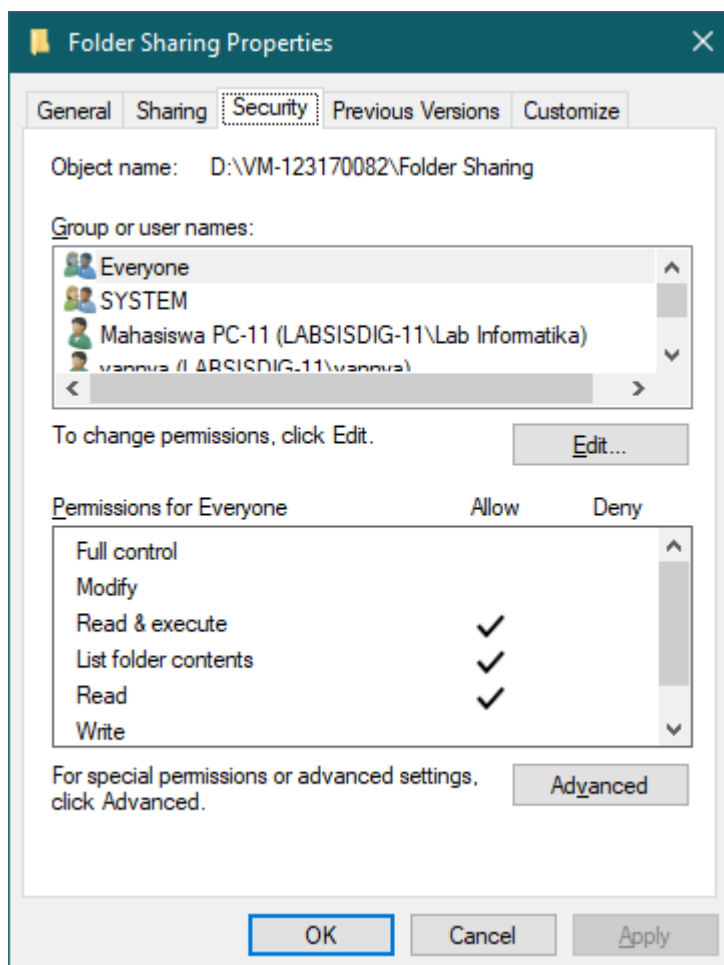

Supaya tidak read saja, maka aksesnya diganti menjadi read/write

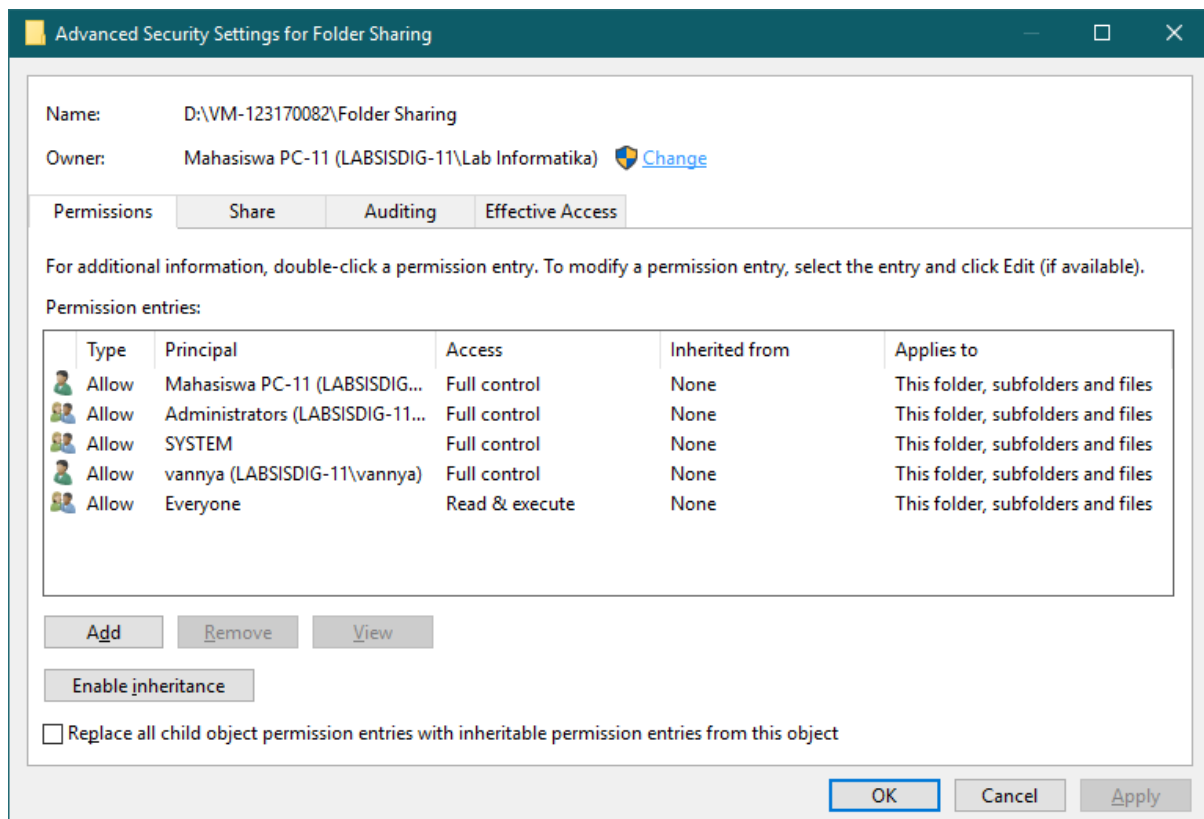

Kemudian buat access untuk everyone

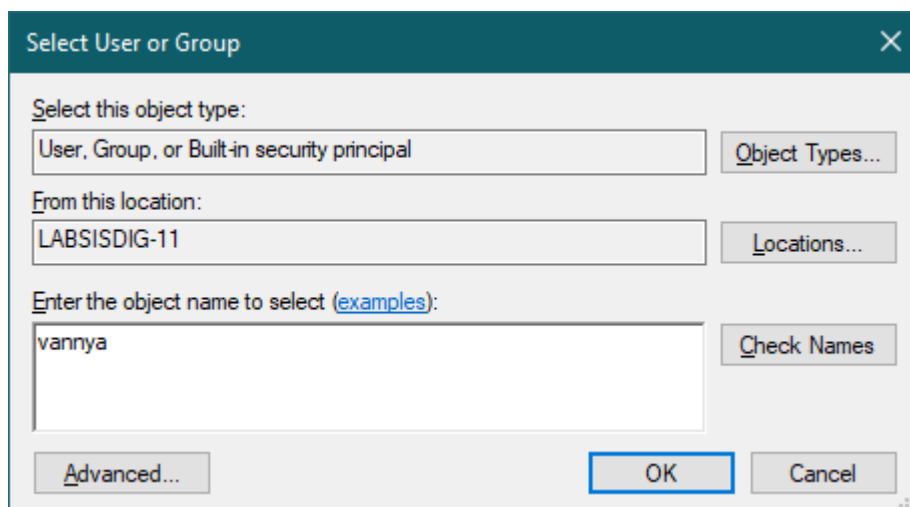

Mengubah kepemilikan folder sharing

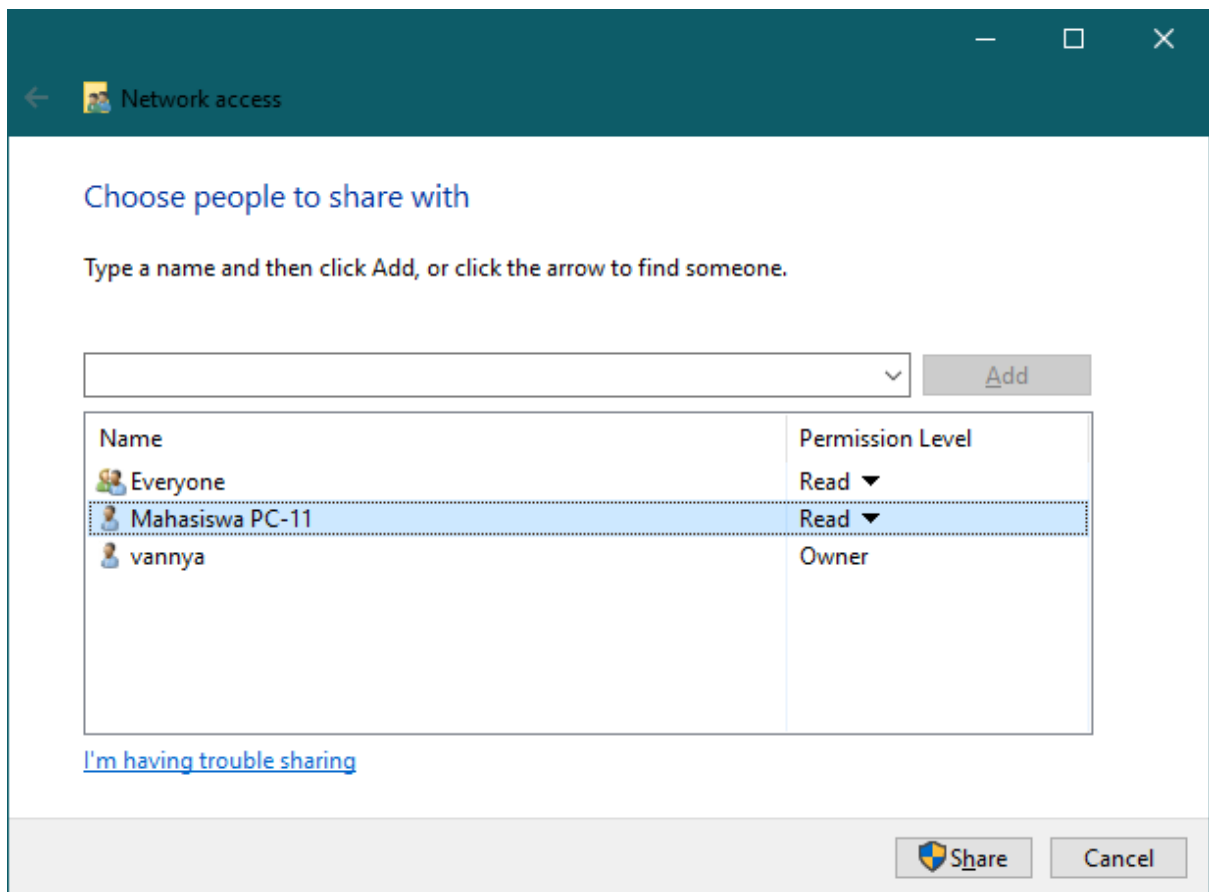

Klik kanan properties lalu buka tab security lalu ada advance lalu klik saja

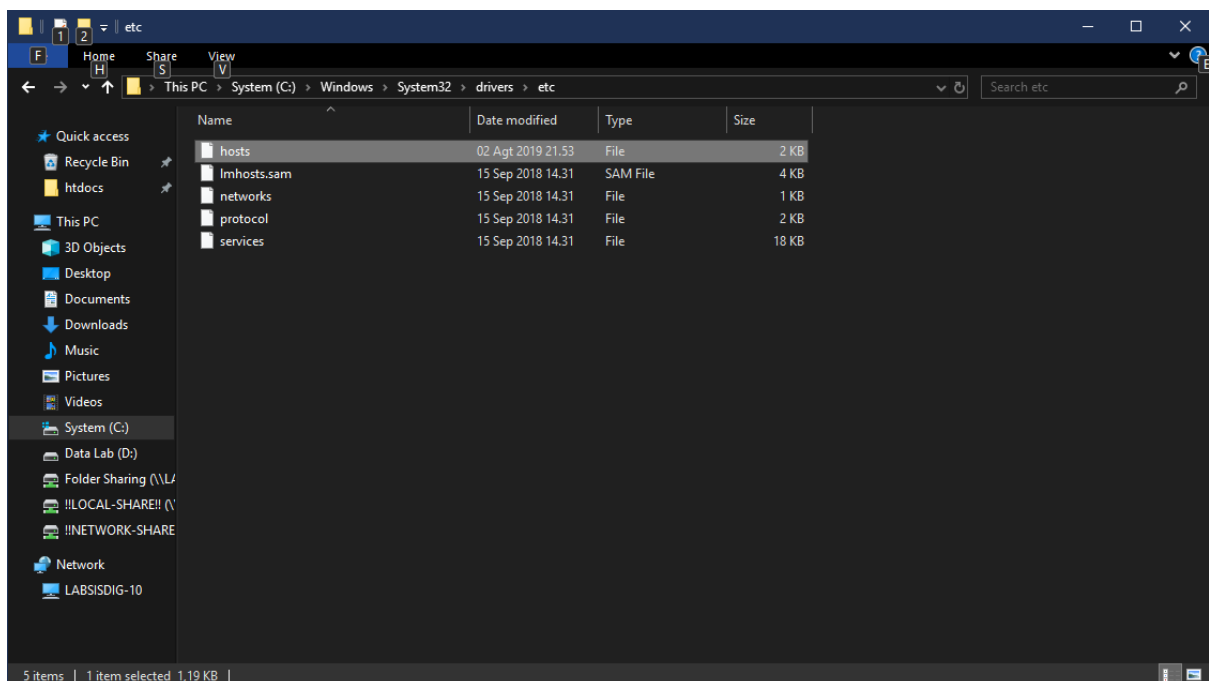

Lalu klik change

Lalu diisi nama lalu klik check name biar auto correct lalu di oke lalu disave

Lalu ganti bagian network access dibagian permission level di ganti read semua agar owner saja yang bisa baca tulis

Hasil Mapping dari 3 tempat teman
